

# SAVE THE BAY

March 12, 2020

Dear Bay-Savers,

We're reaching out to provide you with some information on how Save The Bay is responding to the Coronavirus (COVID-19) pandemic, as it relates to our programs.

Save The Bay's number one priority is the health and safety of our supporters, volunteers and staff.

In the face of an enormous public health challenge, Save The Bay is doing all we can to protect against the spread of Coronavirus and promote the safety and welfare of our community.

The organization is taking action to limit the exposure of the virus to the public and **at this time, we are suspending all student, public and corporate programs through April 2020.**

We will continue to monitor and reassess the situation with hopes of resuming our May programs.

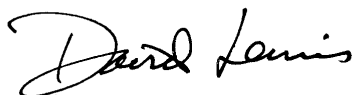

If you are scheduled to join us on the shoreline, someone from our team will be in touch with you soon. If you have any questions or concerns, please don't hesitate to contact Gwendolyn Tornatore at [gtornatore@savesfbay.org](mailto:gtornatore@savesfbay.org) or 415.743.0767

Save The Bay's mission remains vital – fighting climate change and pollution, restoring wetlands, and educating the public will still be urgent, now and when this crisis passes. Together, with your support, we'll continue to build a healthy and resilient Bay for everyone.

Thank you for understanding and for your continued support of Save The Bay.

Please stay safe and healthy!

Sincerely,

David Lewis,

Executive Director, Save The Bay
